SPEAKER

The Hon. José M. Rude, Argentina
President
International Court
of Justice

* There will be similar celebrations all over the World, with the celebration in Beijing being the Summit or chief program of WORLD LAW DAY.

The major purpose of WORLD LAW DAY is to call to public attention the law and its important part in the lives of all mankind. For this reason all members of the public are invited to the hundreds of World Law Day Programs which will be held world-wide in most of the nations of the world.

Because WORLD LAW DAY is on Sunday, many of these programs are stressing the moral values and concepts which are embodied in the principles of the rule of law, as handed down to us today by the great lawyers of the past. The rule of law is the most universally accepted concept of humanity; therefore, it offers the best foundation upon which to build a peaceful World order with justice for all persons and all Nations.

FACT PATTERN

Republic Alpha in East Asia/Africa became a sovereign state after more than 60 years of colonial rule and administration by the traditional European empire of Beta. Its independence was achieved after a liberation movement had fought a civil war in the post-World War II era.

During colonial times the administration allowed scientists, archeologists and explorers to visit the colony and to take part of their excavated objects with them and home to the motherland. Thus in 1907, an expedition financed by the empire of Beta and organized by a renowned Professor of history found, after a series of excavations, amongst other treasures, the famous ring of the legendary Emperor Asa the Great.

While the other antiques were taken to a newly-built national museum in Alpha, the ring was transferred to the Empire-Motherland Beta, restored and exposed at the national colonial museum of its capital city in 1909. Immediately after World War II, the liberation movement in the colony Alpha started, and in the ensuing violent civil war, all public buildings, the national museum included—were destroyed. After 40 years of independence the national assembly of the now Republic of Alpha wants the former motherland to return the ring as a symbol of national identity and historic heritage of Alpha. Furthermore the foreign ministry argues that the ring was removed from the territory of Alpha illegally and that state Beta had no title of ownership whatsoever to the national symbol.

State Beta replies that no sovereign state existed in the territory of Alpha at the time of the discovery of the ring, so that its finder could lawfully take it away. Furthermore if the ring had not been taken into custody abroad, it would have been lost or destroyed in the civil war or in the war of independence so that it was preserved only because of its removal in 1909. State Alpha asks the Court to enter an order obliging State Beta to restore its national symbol. State Beta asks the Court to dismiss the case on the grounds that the ring is the property of the state Beta, that state Alpha is not the successor of any sovereign state nor has any other person or institution been the lawful owner of the symbols before their acquisition by the state Beta.
